

KEY PRODUCT FEATURES

- Ultra slim off-set gear box design, ideal for fitting into slim glazing up stands.
- Face mounts onto flat profiles, no need for euro groove.
- Stainless steel construction for ultimate corrosion resistance.
- Fast fit telescopic design which reduces fabrication time, no need for cropping.
- High security accredited.
- Supplied as a kit, complete with keeps.
- Off-set handle extension kit for fabrication of windows with the handle off-set from the centre of the sash.
- 10 year corrosion and mechanical guarantee.

MUSTANG SLIM LINE SHOOTBOLT

TECHNICAL SPECIFICATION

The Mustang shoot bolt with its ultra slim off-set gear box is ideal for face mounting on flat profiles. With the gear box fitting up into the glazing leg, only a 6.5mm wide cavity is required, allowing it to fit on to profiles with the slimmest of sightlines. This makes it the ideal choice for aluminium systems. The slim line shoot bolt is largely stainless steel in construction to meet ever increasing requirements.

Only five sizes required to fabricate sashes from 350mm to 1400mm with an extension bar available to achieve an even larger sizes or off-set handle positions.

TESTING AND ACCREDITATION

UKAS laboratory tested to BS EN 1670 and has exceeded grade 4 classification.

Tested to 30,000 cycles under operational load.

Has attained BS7950 across a range of systems.

Has Secured by Design accreditation.

PRODUCT MATERIAL SPECIFICATIONS

Zinc die cast components - ZL2 with zinc passivate finish.

Stainless steel parts are - 430 S17 or 304 stainless steel.

Reverse pinion gears - carbon steel (CS70).

SASH RANGES

Size 1 = 350mm - 410mm.

Size 2 = 410mm - 530mm.

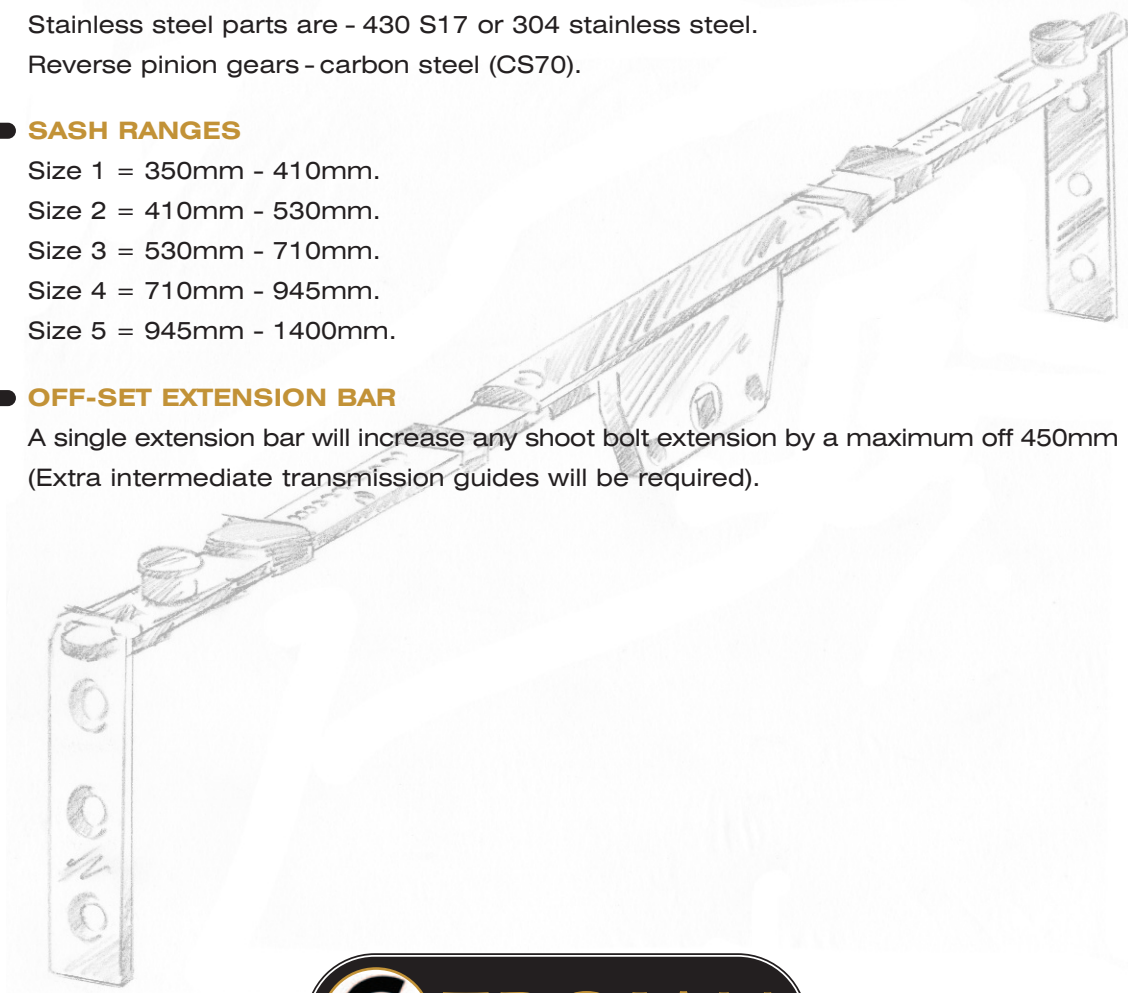

Size 3 = 530mm - 710mm.

Size 4 = 710mm - 945mm.

Size 5 = 945mm - 1400mm.

OFF-SET EXTENSION BAR

A single extension bar will increase any shoot bolt by a maximum off 450mm (Extra intermediate transmission guides will be required).

The Strength of Hardware Design
