

TROJAN

HARDTALK

SPRING 2017

WELCOME TO THE LATEST ISSUE OF HARDTALK

Welcome to the latest issue of HardTalk. As usual the team at Trojan are extremely busy. Our plans for FIT 2017 are nearing completion and we will be FIT and ready to welcome you to stand C14 at the NEC in May.

Inside this issue, you will hear about our latest new product launch, the patented TS008 Unicorn Letterplate which meets the requirements of current legislation and packs a punch in letterplate design. For those of you visiting FIT 2017, the team and I very

much look forward to seeing you at the show where a warm welcome is guaranteed on Trojan's stand.

Until next time!
Tony Chadwick
Group Managing Director

INTRODUCING THE COMPETITIVE TS007 3 STAR SOLUTION

Our TS007 2 Star stainless security door handle combined with a 1 star cylinder meets the requirements of Document Q but at a much more competitive price than a 3 Star cylinder / standard handle combination and provides a clear visual deterrent against attack too.

The stylish handles are manufactured from 304 Stainless Steel giving ultimate corrosion resistance and come with a 25 year guarantee on all finishes.

Colours available include Polished Gold (PVD), Brushed Gold (PVD), Polished

Stainless, Brushed Stainless, White and Black Powder Coated over Stainless.

INTRODUCING OUR COMPLETELY NEW PATENTED TS008:2015 UNICORN LETTERPLATE

Our completely new TS008 Unicorn Letterplate has been designed to meet the exacting TS008:2015 advanced security requirements for letterplates. Letterplates must pass this standard to be PAS 24 compliant – a primary reference in the Building Regulations Approved Document Q.

Manufactured from 304 Stainless Steel for ultimate corrosion resistance, the TS008 Unicorn Letterplate offers a simple but elegant styling which will complement any doorface.

The TS008 Unicorn Letterplate is available in a full choice of external finishes including Polished, Brushed, PVD Gold, Black and White. It comes with a 25 year anti-corrosion guarantee and 10 year mechanical guarantee for total peace of mind.

KEY FEATURES

- TS008:2015 accredited
- Conforms to PAS 24:2016 and Document Q approved
- Suitable for both composite doors and PVC-U doors (range from 40mm to 75mm)
- External flap is manufactured from 304 Stainless Steel for ultimate corrosion resistance
- Inner flap gives maximum protection from fishing
- Inner flap sits lower than the door handle height for added protection
- Will fit any door to meet TS008:2015 accreditation without the need to retest

The new TS008 Unicorn Letterplate will feature on our stand at this year's FIT Show so make sure you **make a beeline for stand C14 to find out more...**

SEE US ON
STAND C14

SEE YOU
THERE!

As the countdown begins until the doors open for FIT 2017, the NEW Trojan stand is looking good.

With a modern, contemporary stand theme we will be showcasing a range of our innovative hardware solutions and launching our new patented TS008 Unicorn Letterplate which meets the exacting requirement of TS008:2015. You will find us on stand C14, opposite group company Yale Windows and Doors. So, to be amongst the first to see our new TS008 Unicorn Letterplate and other exciting new hardware products, make sure you make a point of visiting us.

TROJAN'S "ALL IN ONE" SECURITY + STAINLESS 25 YEAR ANTI CORROSION PACKAGE

For some time, our Security Stainless Steel door hardware range has been a big hit with fabricators and installers who are looking to offer high-end hardware products that offer total reliability, will not fail or corrode and meet both TS007 and TS008 requirements.

It is a well-known fact that zinc- and aluminium-based hardware will start to fail sooner or later because the damp weather we experience in winter speeds up the corrosion process, resulting in disappointed customers, callouts and replacements that are costly to your bottom line. That problem is

eliminated with our Stainless Steel range.

All products in Trojan's Stainless Steel door hardware range offer a corrosion-free solution and come with an impressive 25 year anti-corrosion and 10 year mechanical guarantee as standard. Our range of Stainless Steel door products is constantly expanding and now consists of door handles, including the TS007 2 Star Door Handle (all available at three price points so there is a product for every budget), letterplates (including the new TS008 Unicorn Letterplate), door knockers, door numbers/letters, escutcheons, T-bar pull handle variants and a central door knob.

In short, Trojan offers the complete package for Document Q compliance with anti-corrosion benefits.

WHY HAVE WHITE?

Our extended coloured hardware range has proved extremely popular with little sign of colour demand slowing down. Available across all our flag and composite door hinges in any RAL colour including perennial favourites Chartwell Green, Anthracite Grey and Cream. Our painted range has achieved 1000 hours' salt spray resistance and comes with

a 10 year mechanical and surface finish warranty too. The range has generated serious interest from customers and potential new business because it allows them to fit a painted

product without fear of the surface finish failing.

For more information on our coloured range call our sales team for details.

ATHENA HEAVY DUTY HINGE FOR COMPOSITE DOORS

We have recently extended our heavy duty Athena Door Hinge range to include a version suitable for composite doors. The Athena Hinge has proved very popular since we introduced it last year and customers can now take advantage of its unique, patented

design when working with composite doors too.

- PAS 24:2016 compatible as part of a door assembly
- 2D adjustment with door in the closed position
- Three Athena Door Hinges have a combined carrying weight of 100kg

- Fitter and installer friendly (lift on, lift off design)
- Available in White, Black, Brown Oak (UV stabilised), Polished Chrome, PVD Gold, Satin Silver and any RAL colour

AVAILABLE NOW!!

A THANK YOU FROM TERRY DOLMAN

Our Design Director Terry Dolman recently took part in a team skiing event to raise money for Snow-Camp, a youth charity that works with disadvantaged inner city young people.

Between 19th and 22nd January Terry and a team of three other skiers competed against other teams to clock up over 150km of GPS-tracked skiing or boarding in two non-stop days. Terry raised just under £3000 and would like to thank everyone for their kind donations and support.

LANDMARK YEAR!

2017 is an important year for us at Trojan as it marks our 25th year in business.

While it's a quarter of a century since we began manufacturing window and door hardware our passion and desire to offer the best designed products in the market has never changed. We constantly keep our finger on the pulse of design trends and ensure we deliver products that make a big difference to our customers.
